To: Doug <d@w7dvr.com>, VOI Board <board@voiceofidaho.org>, Tech committe <tech@voiceofidaho.org>

Cc: Voice of Idaho <board=voiceofidaho.org@mail122.sea31.mcsv.net>

This action flies in the face of BOD action documented in the minutes of the board as attached and as was assigned to the Technical Committee. As far as I am concerned you and Don have usurped work done by member of the Tech. Committee for your own personal agenda.

I find it disturbing that you and Don have had over two years to have submitted your own SF299 and never done so until now, when others took up the cause, you had to usurp their work to do so and doso behind their backs in a most disturbing and underhanded manner.

For this and other issues recently copied to the Board I no longer wish to serve as Director of the Technical Committee under your and Don's reign and am RESIGNING effective immediately.

Any VOI equipment I have will be left at Don Lynn's residence in the next few days. Simon KC8WF has both repeater controllers.

I will inform the USFS and Wilderness Wireless of my resignation.
